Group Norms and Team Contract

Group Member Names: Eddie Melfi and Nicholas Aksanov

The objective of this activity is for your group to decide upon group norms and craft a team contract. Your entire group should come to a consensus about these items.

Submit the link to this document as part of your quiz for today. Also share the link with everyone in your group.

Note that part of your final project grade will be the effort you put into your project.

Decisions (How will they be made? Majority, consensus, other?)

Decisions will be made on a consensus, they will have to be agreed upon by both of us.

Attendance (What are your expectations for the frequency and type of attendance for work outside of class/lab time?; What are legitimate reasons for missing? What do missing members have to do to make up for missed meetings)

Both of us will attend class when we can, if we are not able to then we will let the other person know about it ahead of time if possible. The partner that attends class will let the missing partner know what happened and what work they are missing.

Assignments (How will assignments be made? How will the group deal with members who do not complete (or poorly complete assignments?)

If a partner doesn't know how to complete an assignment, they will tell the other partner what they are having trouble with. If both partners can't figure it out then they will both enlist the help of one of the TA's or the professor. Assignments will be made playing to the strengths of the members to lessen the likelihood of not knowing what to do.

Participation (How will you communicate and share information; How will you ensure full participation of everyone? How will you honor member strengths and interests)?

Everyone will communicate through text or phone call if necessary. Phone numbers were exchanged already so there's no reason to not contact each other when necessary. We will check in with each other periodically.

Meeting Times and Locations/Mediums (How will you decide on locations and times that suit all members)?

We will meet in class and every week on Friday from 12 to 2 pm as that's when we are both available. This can change when need be. We will meet at the most convenient time and location for both of us.

Agenda and SCRUM Meeting Notes (Who will take them and in what format will they be shared?)

We will format the meeting notes and agenda based on the example that was provided in the Scrum video on brightspace.

Promptness (What do you expect and how will you handle lateness?)

Refer to previous sections.

Conversational Courtesies (How will the team encourage and reinforce active listening, sharing of the airtime, tangents, respectful dialogue, etc)

We will be respectful of each other and make sure to communicate when necessary and possible.

Enforcement/ Feedback (How will the team enforce its own rules? How do individuals prefer to give and receive feedback?)

We will look at each other's work and give honest feedback on when we look at each other's work. Trying not to be brutal or harsh about it.

You may add additional norms here.

Raw doggin app idea - dog dating/playdate "app"

Minesweeper type of "app"

Flappy bird knockoff
